

January 5, 2017

I am writing on behalf of the Greater Tomah Area Chamber of Commerce and the Tomah Convention and Visitor's Bureau to support our local school district. As we know, Wisconsin is a very diverse state. What works for one community, does not necessarily work for another. We see this in tourism, agriculture and economic development. Because of our unique and diverse business and economic climate, schools should be able to control their yearly calendars at the local level. This will better help support businesses and the residents of our communities.

I thank you for your assistance in helping to grow Wisconsin's tourism and economy through embracing each community's unique needs.

Sincerely,

Tina M. Thompson
