## JOINT COMMITTEE ON FINANCE

April 28, 2023

TO: Members  
Joint Committee on Finance

FROM: Senator Howard Marklein, Senate Chair  
Representative Mark Born, Assembly Chair  
Joint Committee on Finance

SUBJECT: 2023-25 Budget Procedures for the Joint Committee on Finance

The purpose of this memorandum is to inform you of the process that the Committee will use in reviewing the 2023-25 state budget.

### **Items to be Removed from Budget Consideration**

It is our intent to draft a motion that would remove certain provisions within the Governor's 2023-25 budget recommendations from further budget consideration. The list of items that will be included in the motion is attached. The list includes the page and item number showing where the provisions are described in the Legislative Fiscal Bureau's summary of the Governor's budget. The first item that the Committee will consider at its initial executive session will be the motion to remove those items from further budget deliberations.

Although the items on the list will not be included in the Committee's budget deliberations, some of them might be addressed in non-budget legislation and could require language in the budget to carry out the intent of those acts. The Committee will address those matters as necessary.

## **Beginning Point**

The Committee will use, as its beginning point, the adjusted base. Although items of the Governor's bill that have not been removed under the above motion will be before the Committee, it will take a majority vote to include any of the Governor's provisions into the Committee's version of the budget. Similarly, any motion advanced by a member of the Committee will require a majority vote to be adopted.

Following the motion to remove certain items from further consideration, there will be a motion to introduce and adopt a substitute amendment to the Governor's budget bill. The substitute amendment will include only the adjusted base for each agency.

After introduction of the substitute amendment, the Committee will vote on a motion to include standard budget adjustments for 2023-24 and 2024-25 and funding for the 27<sup>th</sup> biweekly payroll. This will be followed by a motion to provide estimated amounts for current law sum sufficient appropriations and required debt service associated with the state's appropriation obligation bonds for the 2023-25 biennium.

## **Executive Sessions**

The Committee will hold its first executive session on the budget on Tuesday, May 2. The meeting will begin at 11:01 a.m. in Room 412 East, State Capitol. Following consideration of the motions described above, the Committee will consider the following sections of the budget.

- Board for People with Developmental Disabilities
- Court of Appeals
- Elections Commission
- Fox River Navigational System
- Governor
- Investment Board
- Judicial Commission
- Kickapoo Reserve Management Board
- Labor and Industry Review Commission
- Lieutenant Governor
- Lower Wisconsin State Riverway Board
- State Fair Park
- Wisconsin Health and Educational Facilities Authority

In the case of large agencies with multiple sections, the executive sessions on those agencies may be scheduled for more than one session. The Committee will only entertain motions that apply to the section that is posted. For example, when the State Patrol of the Department of Transportation (DOT) is scheduled for an executive session, the Committee will only consider motions related to the State Patrol and not other items of the budget of DOT.

## Budget Motions

During its executive sessions on the budget, the Committee will work from the following three documents.

1. **LFB Summary of the Governor's Budget Recommendations.** This is the document that we have used during the briefings and public hearings.
2. **LFB Budget Papers.** The Legislative Fiscal Bureau will attempt to distribute its papers at least 72 hours prior to each of the Committee's executive sessions.

Prior to the Committee's May 2 executive session, the Fiscal Bureau will have two large binders delivered to your offices. The LFB papers for each day's executive session will be delivered to your offices in a small, three-ring binder. At the end of each executive session, remove the papers from that day, place them in one of the large binders for your record, and return the small binder to the Fiscal Bureau. The Bureau will then place papers for the next meeting in the small binder and return it to you.

Immediately following distribution of the papers to your offices, the Fiscal Bureau will post the papers on its website.

3. **Individual Motions.** Motions will be made from the budget papers or the LFB summary of the Governor's recommendations. If a member of the Committee desires a vote on a budget-related item that is not contained in either the LFB summary or a budget paper, the member should contact the Fiscal Bureau and ask that a motion be prepared on that item. If a member has an LRB draft on an item, that should be forwarded to the Fiscal Bureau along with the motion request. The Bureau will then: (1) prepare the motion; (2) indicate the name of the Committee member who authored the motion on the motion itself; and (3) give the author sufficient copies of the motion for distribution to the entire Committee. The Bureau will keep the motion confidential and will distribute all copies only to the author. This distribution will occur at the commencement of, or during, each executive session. The Chairs will only entertain motions that have been prepared by the Fiscal Bureau.

In order that the Bureau has time to properly prepare the motion and produce sufficient copies for the Committee, members should submit all motion requests at least one day prior to the executive session on each agency or program.
